Before it reaches your table, our delicious products go through many dedicated hands.

The first responsible hands are those that harvest what is most essential for our recipes. The selected products maintain the essence of the artisanal goods, which reflects our roots.

And care is the key word—from the harvest, through every process in our factory, to transportation. This is what ensures our quality until it reaches your family's hands!

We are a blend of tradition, which has been with us since 1965, and the innovation of a company that is always seeking new technologies.

Our delicious treats already have a destination: over five thousand points of sale and millions of homes across Brazil.

But what matters most to us is to see a table full of good moments, smiles, and lots of love. After all, this is our main ingredient!
